

Share your paper doll's adventures
with #cbforlibraries

Print the template on cardstock paper.
Color your librarian with your favorite crayons,
markers or colored pencils (Pink hair? Yes, please!)
Cut out the body and legs.
Cut the slots along the red lines (and Exacto blade
will come in handy for this). This is where you'll
insert your tabs to hold your librarian together.
Fold along the dotted lines.
Insert the labeled tabs into the coordinating slots.
Connect the legs to the body by inserting the 4
tabs at the top of the legs into the 4 slots on the
bottom of the body.
